

business recovery & insolvency security advice...

We are able to advise on security both for the suppliers and creditors of a business.

Advice can be given when security is taken on a company to ensure it is legally binding and when it is being called upon.

In addition to debentures and charges we can also advise on Retention of Title (ROT).

If you receive a notification of a creditors meeting we are also able to assist in lodging your claim and providing representation at creditors meetings.

Advice can be given by Insolvency Practitioners, although some specialist legal advice may also be required.

Cost is dependant upon advice given.

Dains Business Recovery services can provide expert advice with an experienced team. We are pleased to offer a free initial advice consultation to assess the company's circumstances and advise on other options available.

For further information please contact us on 0845 555 8844 or email us on recovery@dains.com.
